DOCUMENT LIFECYCLE PIPELINE

FEATURES & WORKFLOW

Core Features

- AI-Assisted Clause Extraction
- Custom Compliance Checklists
- Structured Expert Review
- Centralized Clause Library
- Multi-Stage Approval
- Comprehensive Audit Trail

Use Cases / Scenarios

- Bid Management
- Regulatory Compliance
- Standardization of Negotiations

Security / Compliance

- Enterprise-Grade Authentication
- Granular Access Control
- Data Sovereignty
- Document Security

How It Works

- **Step 1:** Upload & Configure – Upload the contract (PDF or Word), select the relevant principal, and assign the appropriate compliance checklist.
- **Step 2:** AI Analysis – The system scans the document, extracts exact clause language, and flags risks based on your predefined severity levels.
- **Step 3:** Expert Review – Reviewers evaluate findings, refine suggested amendment language, and document the reasoning for each decision.
- **Step 4:** Approval & Export – Approvers validate the review quality and sign off, triggering the generation of professional Word and Excel deliverables.

Zyron: Precision AI Meets Expert Judgment

Verifiable Clause Extraction
